Sarah Nedovic

After combining her love of design and sculpture along with the practicality of lighting a space, Melbourne based textile designer Sarah Nedovic began creating sculptural lamps of clay only two years ago. Forever drawn to the timeless art form of ceramics, each lamp is handmade by Nedovic, meaning every piece is unique, with its own imperfections and undone character. Though they all come with a distinct artful signature, from jagged shapes or fluid forms in colours from cream, black and even burnt orange. A Sarah Nedovic lamp is a practical art piece to cherish forever.
